

EU Taxonomy Activities For Active Net Zero

In order to use widely accepted definitions, we consider net active zero activities to be those outlined in the following sections of the Annex to the EU Sustainable Finance Taxonomy (Regulation 2020/852 of the European Parliament and of the Council); 3.1 – 3.5, 3.9, 3.14 and 4.1 – 4.25. Under 3.5, Manufacture of other low carbon technologies, we include the supply of materials for low carbon technologies including mining of key minerals such as lithium, graphite, manganese and cobalt for energy storage where this is done sustainably
